SUBJECT: EXTRANCHECK: PRE-LICENSE CHECK: MOHAMMED BIN GHALIB
ENERGY.

REF: USDOC 0338

¶1. Reftel requested that post conduct a pre-license check for license application D411812: 2 Inch Worcester Ball Valve with Monel body which is controlled under ECCN 2B350 for Chemical and Biological Warfare reasons. The U.S. license applicant is Flowserve Corporation, Cookeville, TN.

¶2. On February 15, 2009, Export Control Officer (ECO) met with Mr. Thameemul Ansari, Senior Procurement and Logistics Executive, Mohammad Bin Ghalib Energy Enterprises at their Dubai offices. Ansari explained that Bin Ghalib Energy specializes in supporting the UAE based oil industry with specialized equipment which includes valves, pumps and tools for oil field operations. This particular valve was ordered for the Abu Dhabi based Zakum Development Company (ZADCO) to be used in ZADCO's support to a water injection system at an Emirate of Abu Dhabi Government owned oil production complex. Ansari was aware of U.S. export control restrictions and provided ECO with copies of relevant documentation this order.

¶3. Post considers Mohammed Bin Ghalib Energy to be a reliable recipient of U.S.-origin equipment for this transaction.
